# P2010 Gran Lusso: The Gentlemen's aircraft

What is a gentleman? Regardless of the gender, a gentleman is polite and behaves well towards other people. Someone with class, style, who stands out from the crowd effortlessly.

## The 3 Traits Of The Gentleman

1. Distinguished from ordinary people or things,
2. A strong personality that drives respect and esteem,
3. Knowledgeable, yet cool, with a taste for beauty and Dolce Vita.

A Gentleman knows that the GranLusso is more than just an aircraft. It is a signature, a representation of a unique style and a must for someone who wants to fly without compromises.

Fly around the world in an aircraft that behaves amazingly while you are surrounded in a quiet cabin covered with the best Italian Leather. Feel the beautiful interior design that will make you question if the real view is outside or inside the cockpit. Land, making a memorable entrance that WOWs other people anywhere you go.

These are the main ingredients that make the Gran Lusso not everyone's plane.

An aircraft with character, like a tailormade suit.

A plane with a personality of its own

- Sporty but with elegance,
- Powerful but with style
- Luxurious but not flashy
- Imposing but with balance

**“Manufacturing an aircraft is not just a job, it is a challenge for perfection, driven by infinite passion and dedication.”**

Paolo Pascale Langer, CEO

## Interiors

The yoke tone which can be selected is one of the following or in 'Carbone'.

CARBONE

1 SIGARO

3 PERU

5 CENERE

2 BRUNELLO

4 MIELE

6 MALAGA

# Exterior

## Powerplant

Engine Manufacturer	Continental Aero Cd-170
Engine Power	170 HP
Propeller	Constant Speed 3 Blade MT Propeller
Fuel Consumption	5.2 USG/h (19.5 lt/h)
Fuel Type	Jet A-1, Jet A, Diesel
Fuel tank capacity	63 US Gal (240 lt)

## Design Weight and Loading

Maximum Take Off Weight	1.200 kg	2.646 lb
Empty Weight, Standard	835 kg	1.841 lb
Useful Load	365 kg	805 lb
Baggage allowance	40 kg	88 lb

## Performance

Max Cruise Speed KTAS	259 km/h	140 kts
Stall Speed (Flaps Down Power Off) KCAS	98 km/h	53 kts
Max operating altitudde	5.486 m	18.000 ft
Take off run	425 m	1.394 ft
Take off distance	674 m	2.211 ft
Rate of climb	3,8 m/sec	740 ft/min
Landing Run	270 m	886 ft
Landing Distance	546 m	1.791 ft
Range	1.780 km	961 nm

The P2010 Gran Lusso is ready to bring to your destination with Sustainable Aviation Fuels (SAF) which can save up to 80% net CO<sub>2</sub> emissions.

Discover our commitment to sustainable flight

**“When we design an aircraft, we don’t look at our heritage to check what we have already done, we look to our future to determine what we still need to do.”**

Giovanni Pascale Langer, Managing Director
