Tecnam P2008

The sleek and beautiful lines of the single-engine Tecnam P2008 incorporate a level of comfort, quality, and efficiency that have made it the ideal touring aircraft. With its carbon-fiber fuselage, metals wings and stabilator, the Tecnam P2008 has a vast number of advantages over traditional aircraft. This combination of both composite material and metal has resulted in a more fuelefficient, cost-effective, quieter, and environmentally friendly aircraft. The single-engine P2008's versatility and ease of use have established it as both the aircraft of choice for Flight Training Organizations worldwide as well as recreational flyers alike.
